Short and Tall Top and Bottom

Tom Cat is standing high up on a ladder. He has built a very tall tower of blocks.

Babykins is down on the ground. He looks very short next to that tall block tower.

When he goes sliding, Squeaky climbs up the ladder. Then, wheeee! he slides down the slide.

Mose Moose is boating high in the mountains. He is singing and looking at the birds flying high in the sky. Help! He does not realize he is at the top of a waterfall. Soon he will be at the bottom. Ouch! Oh, Mose, you really should look where you are going.

Long and Short

Grandma Cat is knitting a sweater.
One sleeve is just right, but the
other one is much too long.

Chips Beaver is sawing a long board
in half. Then he will have two short boards.

Can you see someone with a very long necktie?

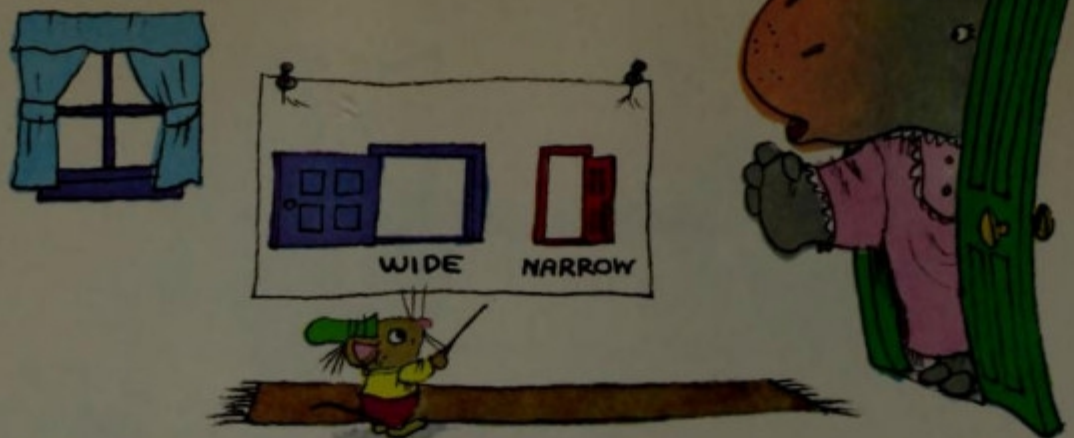

Point to:

a very long necktie
a very short necktie
someone who is short
someone who is very long

Wide and Narrow

Why can't Big Hilda get into the room? The door is too narrow and Big Hilda is too wide. "Look at my chart," says Squeaky to Big Hilda, "and I will show you the difference between wide and narrow."

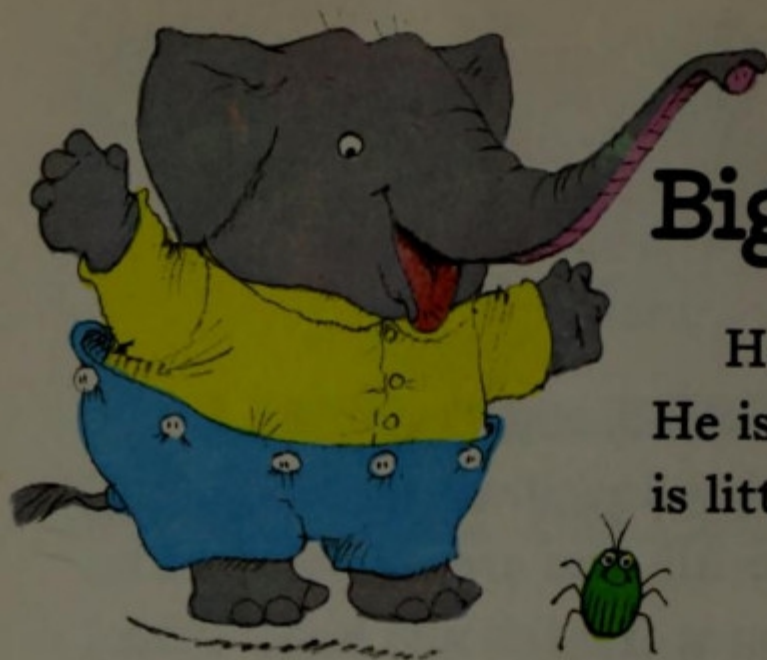

The telephone booth was narrow, but now it is wide. How did that happen?

The street is wide, and Cousin Ali is painting a narrow line down the middle. Whoops! Cousin Ali, you are supposed to be painting the street. You should have waited for the bus to leave the stop!

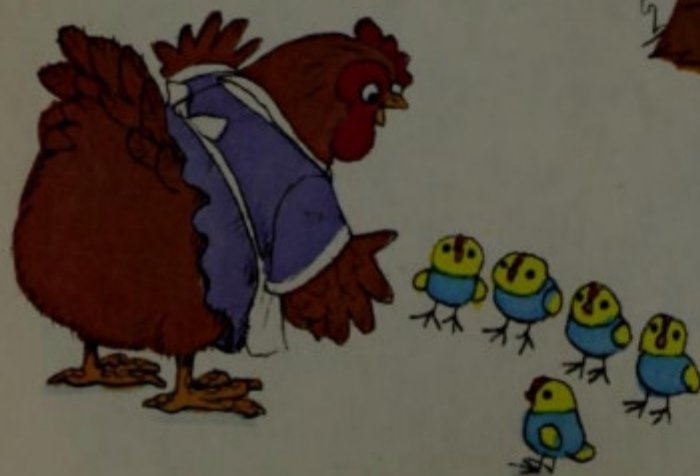

Big and Little

Hannibal Elephant is big.
He is very big. Spuds Bug
is little.

Squeaky Mouse is little
and Bully Bobcat is big.

Henny is big and her
children are little. Someday,
they will grow up to be as
big as their mother.

Captain Fishhead is very proud. He has caught a fish. His son Bilgy has caught a fish, too. Captain Fishhead is big, but he caught a little fish. Bilgy is little, but he caught a great big fish.

Cousin Ali is much bigger than a little bee. "A bee may be little," says Ali, "but he has a big sting! It's a good idea to stay away from bees."

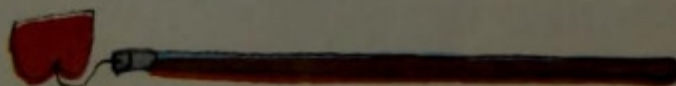

Thick and Thin, Fat and Skinny

Mr. Fixit Fox and Chips are working in a tree today. Mr. Fixit Fox is sawing a thin branch. Chips is sawing a thick branch. Mr. Fixit Fox and Chips are silly. Do you know why?

Is the handle of the
hoe thick or thin?

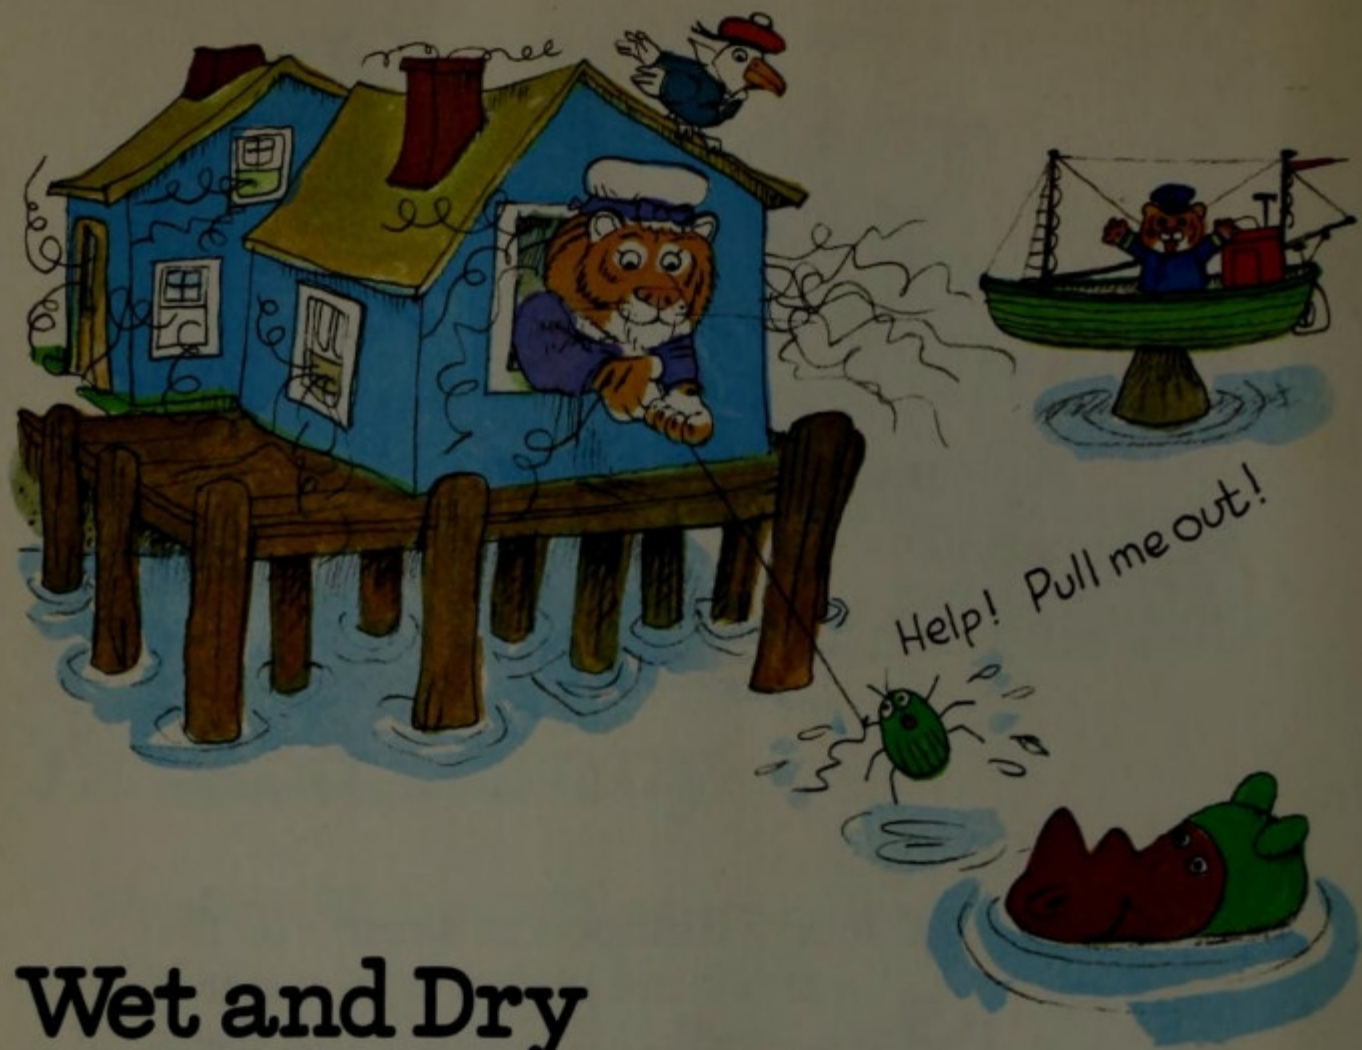

Squigley can crawl through a hollow log because he is very, very skinny.

Pickles Pig eats a lot of pie, and that is why he is very, very fat.

Are Maud and Molly Rhinoceros skinny or fat?

Wet and Dry

Molly likes to go swimming because it makes her feel nice and wet and cool.

Spuds Bug hates to get wet. He wants to stay dry. Mrs. Fishhead will pull him out and give him a towel to dry himself with.

Mr. Badger was taking an ocean voyage. Suddenly the wind began to blow. Away flew his beautiful hat.

Splash! Into the water went that beautiful hat. Soon it was soaking wet.

In a few days, the hat drifted ashore. It lay in the sun until it was dry again. A little Piglet found it and put it on, but it was much too big for him! So he gave it to his father.

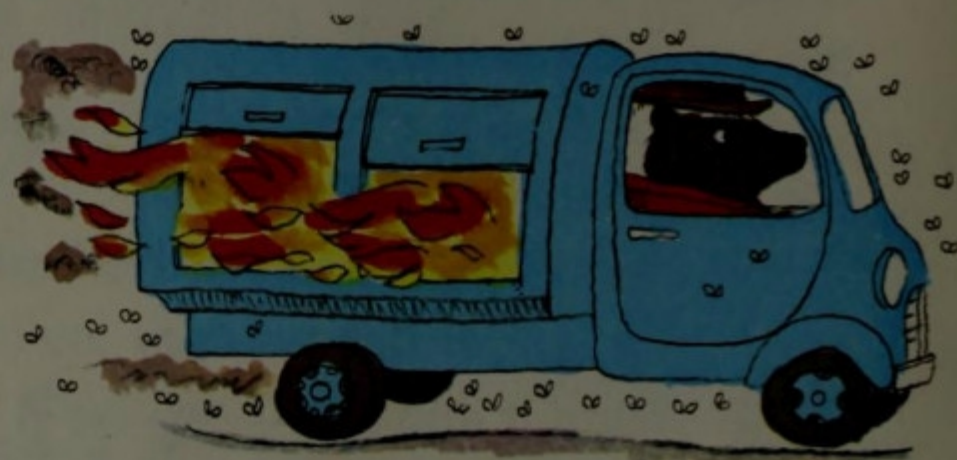

Cold and Hot

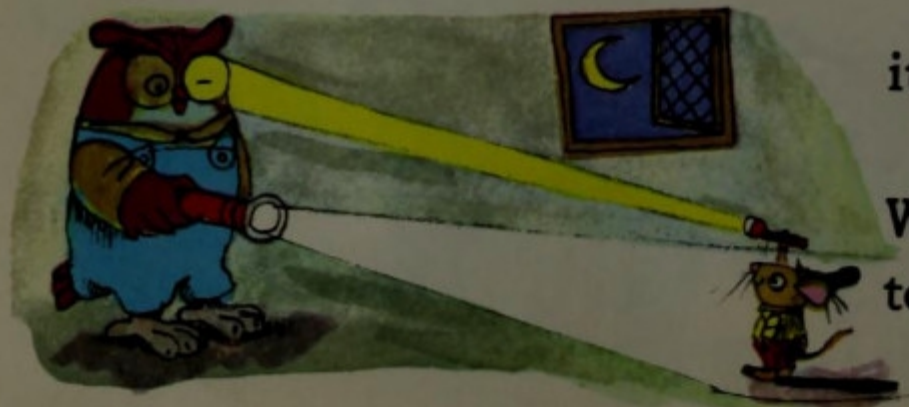

Ice is cold.

Fire is hot.

Light and Dark

In the daytime,
it is light.

At night, it is dark.
We can use a flashlight
to see in a dark room.

Open and Closed

The door was closed.
Then Huckle pushed the
door open. Mamma's bowl
was full—now it is empty.

Polite and Rude

This is polite.

This is rude.

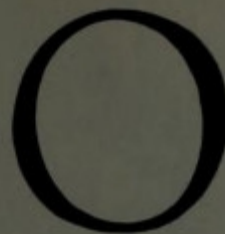

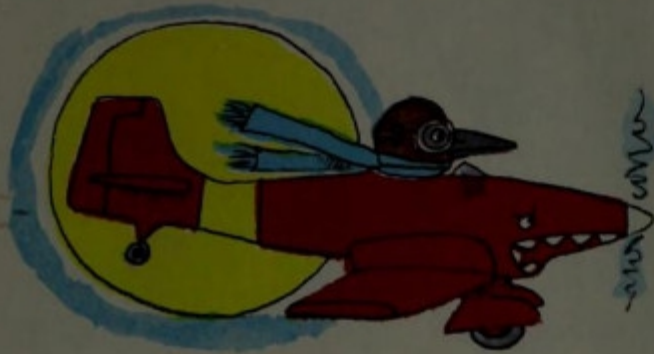

What Shape Is It?

A balloon is round and a block is square. Can you point to some other round and square things in the picture?

Can you point to something heart-shaped?
Do you see a diamond and a star?

What shape is
the moon?

What shape is
the letter O?

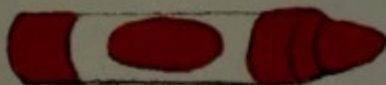

What shape is
the radio?

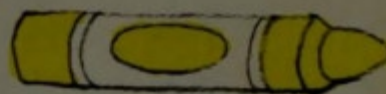

What shape is
the television set?

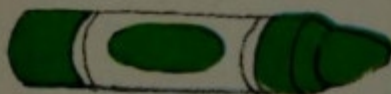

Colors

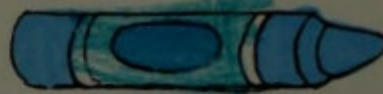

This is red.

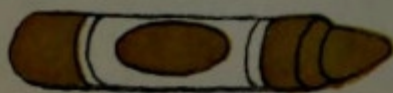

This is yellow.

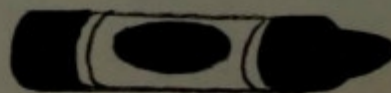

This is green.

This is blue.

This is brown.

This is black.

Cousin Ali has a lot of paint.
He's going to paint his house, and
then he'll paint the school.

Whoops, Cousin Ali is very
careless. Can you name the color of
the paint he is spilling? Can you
name the colors of all his other paints?

Point to:

something green

something red

something blue

something yellow

something brown

something pink

something purple

Golden Look-Look Books

These first books for young children give basic information about places and things from a child's everyday world. The short, simple text introduces each topic and stimulates involvement, as children explore the playground, the supermarket, the zoo, the circus, weather, numbers, flowers, toys, and more. There are objects to point out, colors to name, things to count—nearly every page invites participation. Richard Scarry's funny illustrations heighten the joy of discovery.
